Equipment Rental Service

5th Floor Rwenzori House, Nakasero Road, Kampala,

Tel: +256772212604, **Email:** info@pkos.co.ug

Current Offering

Via our alliance with International partners, we are able to provide equipment rental throughout Africa for the following items:

- **Tanks:**
 - Skidded mud mixing tanks
 - Mobile frac tanks/storage tanks
 - Flow back tanks
 - Skidded acid tanks
 - Water transport tanks
 - Vacuum tanks
- **Pumping equipment:**
 - Centrifugal pump skids: 5x6 pumps, 6x8 pumps and 10x12 pumps

Skidded Mud Mixing Tank

- **Product Features:**
 - 450 bbl capacity
 - 3/8" plate steel construction to accommodate elevated mud weight
 - 2" gun-line and 4" Circulation Lines with ability to circulate from tank front and rear
 - 8" External Manifold with 4 x 4" Weco unions; allows manifolding of multiple tanks
 - Carboline Brand Epoxy Resin Liner
 - Twin Recessed Agitator Mounts with 2 of Ex-proof 11kW agitators
 - Ladder access to top of tank and a safety line on top of tank for working at heights
 - Ships and transports equivalent to a 40ft GP container to minimise transportation costs

Mobile Frac Tank

- **Product Features:**

- Nominal 500bbl capacity
- “V”-bottom design with sump
- Stair and platform with access to roof
- Safety line on top of tank for working at heights
- Front and rear man-ways
- 8” Weco suction manifold with 4 x 4” Weco unions
- 4” recirc line to rear of tank
- Carboline Brand Epoxy Resin Liner
- DOT compliant lighting
- Ships and transports equivalent to a 45ft GP container to minimise transportation costs; wheels and axles assembled at destination port
- Can be customised to road regulations and kingpin requirements e.g. twin rear axle design is available

Flowback Tank – 500 bbl

- **Product Features:**

- Nominal 500bbl capacity
- Stair and platform with access to roof
- Safety line on top of tank for working at heights
- 2 of 8” flanged inlet lines; slotted
- 2 of 4” WECO connections at tank rear for circulation from rear of tank
- Carbolite Brand Epoxy Resin Liner
- Ships and transports equivalent to a 45ft GP container to minimise transportation costs

Skidded Acid Tank

- **Product Features:**
 - 200 bbl capacity
 - Robust plate steel construction
 - Acid-resistant liner to provide resistance to 32% HCl
 - Undercoat is also acid-resistant to provide additional safety
 - 8" External Manifold with 4 x 4" Weco unions; or bespoke as required
 - Ladder access to top of tank and safety line on top of tank for working at heights, or safety handrails if required
 - Ships and transports equivalent to a 20ft GP container to minimise transportation costs
 - Bespoke colour-coding and branding as required

Centrifugal pumps skids

- **Product Features:**

- 5x6 centrifugal pumps
- 6x8 centrifugal pumps
- 10x12 centrifugal pumps
- Diesel- or electric-driven (as required)
